MAYOR

ATTEST:

INTERIM CITY CLERK

PASSED AND ADOPTED by Mayor and Members of the Council of the City of Gautier, Mississippi, at the meeting of September 18, 2012.

**CITY OF GAUTIER
MEMORANDUM**

To: Samantha Abell, City Manager
From: Cindy Steen, Purchasing Agent
Through: Teresa Montgomery, Interim City Clerk
Date: August 30, 2012
Subject: Agreement for Monitoring of Storm Debris Removal

REQUEST:

City Council authorization is requested for the City of Gautier to enter into a service agreement with Arrington & Associates, LLC for Monitoring of Storm Debris Removal Services for debris caused by Hurricane Isaac, if a determination by the City of Gautier is made that these services are required.

BACKGROUND:

The Purchasing Department has received information concerning the monitoring services for debris removal from Arrington & Associates, LLC. This local firm has extensive experience working with emergency management and has submitted information for the monitoring of debris for the City.

RECOMMENDATION:

Based on the attached information, City staff recommends that City Council authorize entering into a service agreement with Arrington & Associates for the monitoring services, if City Council determines that such services are required.

The City Council may:

1. Authorize entering into a service agreement (if needed) with the selected contractor; or
2. Authorize entering into a service agreement (if needed) with a different contractor; or
3. Determine that monitoring of debris removal services is not required at this time.

**Re: Statement of Qualifications for Disaster Debris Monitoring Services for
The City of Gautier, Mississippi**

Dear Sir or Madam,

Arrington & Associates, LLC is pleased to submit this Statement of Qualifications for Disaster Debris Monitoring and other related services of FEMA/MEMA Programs.

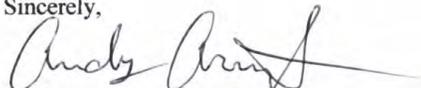

All services will be provided in accordance with applicable federal and state laws, rules, regulations and procedures and in compliance with applicable FEMA/ MEMA program regulations and policies.

Our experience includes providing services related to project design/review, project management, project implementation, compliance monitoring and final project closeout for City and County Governments as a Project Manager; for State Government as a Project Officer for MEMA; and for Federal Government as a Project Officer, Project Specialist and Deputy Debris Operations Manager for FEMA. Including, serving as FEMA Debris Specialist and Deputy Debris Operations Manager for Hurricane Katrina Recovery in a 5 county area in south Mississippi.

Our team of professionals has over 90 years experience practicing as respected scientists, engineers and emergency management consultants and have throughout their careers, proven a commitment to excellence through superior performance, professionalism, integrity and judgment, making our firm capable of managing even the most complex projects with great accuracy and efficiency. We put great emphasis on project planning and firm wide communication to ensure our clients a standard of performance that goes far beyond normal or necessary requirements. We are committed to providing the most comprehensive, cost effective, sustainable, "long-term" solutions available and are constantly looking for innovative ways to significantly reduce the ecological footprint of our company, our clients and our community.

Thank you for inviting our firm to submit this Statement of Qualifications for Disaster Debris Monitoring Services. We look forward to building a strong working relationship with City of Gautier, Mississippi on this project.

Sincerely,

Andy Arrington, President

STATEMENT OF QUALIFICATIONS

- Performance of services related to project design/review, project management, project implementation, compliance monitoring and final project closeout for City and County Governments as a Project Manager; for State Government as a Project Officer for MEMA; and for Federal Government as a Project Officer, Project Specialist and Deputy Debris Operations Manager for FEMA.
- Performance of all activities necessary and related to management of FEMA/MEMA projects including all aspects of project design/design review, project implementation, project management, and compliance monitoring including:
 - Design/Review of project plans and specifications, preparation/review of bid specifications and construction/distribution of bid packets (ensuring that all Federal and State requirements are met in contract preparation), coordination of pre-bid meetings, preparation of addendums and change orders, assistance in bid openings and preparation of bid tabulations, project monitoring and inspections to ensure work being performed conforms to plans and specifications, conducting work-in-progress inspections and prepare monthly/quarterly progress reports, review and approval of all payment applications and requests, any and all construction phase and removal services necessary for project implementation, coordination with FEMA/MEMA and other applicable regulatory agencies as necessary, compliance monitoring to ensure all work performed is in accordance with applicable state and federal laws, rules, regulations, procedures, program standards and policies, preparation and submittal of all required documentation
- Performance of all activities necessary and related to final closeout of FEMA Project Worksheets, including compliance with FEMA project documentation requirements by establishing and maintaining accurate records of events and expenditures throughout the duration of the project, compilation of all documents upon project completion and, the ultimate submittal of these required documents to FEMA, including:
 - Documentation required for events that demonstrate the damage and that work performed is in compliance with program standards and policies including preparation of applicable: Drawings, sketches, plans, photographs, engineering/technical reports and specifications, calculations sheets, job orders, permits and documents supporting compliance with environmental and historical preservation.
 - Documentation required for expenditures such as disbursement and accounting records shall demonstrate that all incurred costs are associated with the approved scope of work including preparation of applicable: Force account labor records (payroll information and timesheets), force account equipment usage and rate schedules, material usage from inventory, records of donated labor, materials, and equipment, contracts or contractor bids, rental and lease agreements, invoices, warrants, and checks, and inspection/ monitoring logs.
- Performance in ALL Categories of Work detailed below (Emergency Work, Permanent Work and Hazard Mitigation Measures) by providing Project Management, final closeout and all other related services related to management of FEMA/MEMA projects including all aspects of project design/design review, project implementation, project management, and compliance monitoring.

- Emergency Work
 - Category A: Debris Removal
 - Category B: Emergency Protective Measures
- Permanent Work
 - Category C: Roads and Bridges
 - Category D: Water Control Facilities
 - Category E: Buildings and Equipment
 - Category F: Utilities
 - Category G: Parks, Recreational, and Other Facilities
- Hazard Mitigation Measures

SUMMARY OF EXPERIENCE

Our engineers and consultants come together with years of experience and knowledge in planning, designing, reviewing, and managing large state and federally funded projects. They have gained years of experience in working with State and Federal Grant programs including Federal Emergency Management Agency, Mississippi Emergency Management Agency Community Development Block Grant, Tidelands, Mississippi Department of State Aid Road and Bridge Construction, Federal Highway Administration, among others. Our consulting engineers and project managers have worked on hundreds of large projects that were federally funded as FEMA Project Officers, Project Specialist, and Debris Operations Manager, MEMA Project Officer, State Aid Engineer, State Bridge Engineer and District Engineers for multiple Mississippi Districts with the Mississippi Department of Transportation.

EXAMPLES OF FEDERAL/ STATE FUNDED PROJECT EXPERIENCE

2010-2012: Federal Emergency Management Agency (FEMA), Public Assistance Declaration No. 1604-DR-LA. Served as a Project Specialist in New Orleans, LA writing PW's for flood damaged roads, bridges and drainage structures.

2010: American Recovery and Reinvestment Act (ARRA) – Recovery JELA 146423. Debris removal and dredging from waterways and canals - Jean Lafitte National Historic Park & Preserve, Barataria Unit New Orleans, LA. Project Funding Amount: \$692,749.00. Verified channel excavations and alignment requirements.

2009: Katrina Supplemental Community Development Block Grant (CDBG) – Project No. R-103-030-04-KED. Dredging of Dry Dock Basin – Signal International Pascagoula, MS. Project Funding Amount: \$7,045,180.00. Environmental & Project Management, ensured National Pollution Discharge Elimination System permit compliance, monitored contractor's progress, verified all pay requests.

2009: Federal Emergency Management Agency (FEMA), Public Assistance. Declaration No. 1604-DR-MS. Ocean Springs Fishing Bridge Demolition, PW 10706. Project Funding Amount: \$945,900.00. Prepared and submitted all environmental permits, prepared and reviewed bid specifications, addendums, change orders and assisted in bid opening/ bid tabulation. Monitored and documented contractor's progress, verified and processed pay requests, coordinated with FEMA, compiled and submitted required project documentation for project closeout.

2009: Federal Emergency Management Agency (FEMA), Public Assistance Declaration No. 1831-DR-FL. Served as a Project Specialist in Florida writing PW's for flood damaged roads, bridges and drainage structures.

2008-2009: Federal Emergency Management Agency (FEMA), Public Assistance. Declaration No. 1604-DR-MS. Jackson County, MS. Project Management, monitored and documented all FEMA funded dredging projects for Jackson County Board of Supervisors, verified and processed all pay requests, coordinated with FEMA and compiled all supporting documentation for FEMA project closeout.
