

World Changers – Partners Make the Difference

To: Sponsors

Re: Summer 2012 World Changers – Sponsorship Request

June 18-23, 2012 - 250 volunteers are coming to Gautier to rehab and repair owner occupied homes.

From: City of Gautier

Date: November 21, 2011

Thank you for taking the time to consider funding support for World Changers, a worldwide neighborhood revitalization program that will substantially, positively, and measurably impact the City of Gautier. World Changers is truly unlike other home repair programs for the customized service, organized media, technical expertise, and community spirit that World Changers evokes. We hope you will join us as a proud partner.

Who They Are: Building professionals and junior high, high school and college age students from across the country who are trading summer fun and paying jobs to wake up early and work tirelessly helping homeowners in need.

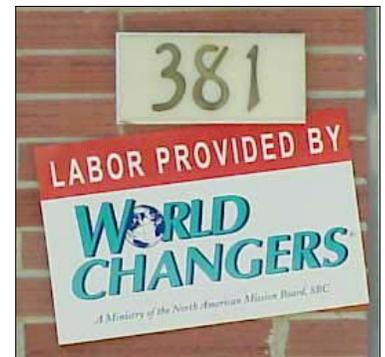

Areas of Focus: A wide variety of home repairs including painting, wheel chair ramps, porch construction and repair, re-roofing, carpentry and fascia work. The project will be funded by private sponsorship like yours.

Partners: In Gautier, World Changers will partner with neighborhoods to identify homes for repairs. As a neighborhood partner your sponsorship will provide on-site building materials- at an average of \$100.00 to \$1,500.00 per home. Signage on-site will prominently identify your partnership. Other partners provide lodging, lunches and snacks to the volunteers throughout the 1-week project period.

Project Overview: All work is performed free of charge to qualifying homeowners residing within the Gautier city limits. Homeowners/Applicants must meet the following criteria in order to qualify for assistance:

- Be a resident of Gautier, and
- Own the home that is to be repaired, and
- Must provide proof that both City and County taxes are current.

Your Support: Please join us in bringing World Changers to Gautier to measurably impact our neighborhoods.
