Household Hazardous Waste is ... Unused or leftover portions of products containing toxic chemicals. Any product which is labeled CAUTION, POISONOUS, TOXIC, FLAMMABLE or CORROSIVE is considered a household hazardous waste.

A Safe Substitute is ... A safe alternative to a toxic product. Fact sheets are available to help you reduce the use of toxics and minimize health risks.

Legal Transportation is ... Leaving products in the original containers and making sure that the containers are sealed so that they will not leak. Transport containers in the trunk or in the back of the vehicle away from passengers.

DO NOT TRANSPORT OVER 5 GALLONS OR 50 POUNDS AT ONE TIME.

Proper Disposal is ... Extremely important. It is dangerous and illegal to discard hazardous household materials in the trash or down the drain. Instead; use up the product as intended or take to a household hazardous waste event.

The collection event is a community service funded by the MS Department of Environmental Quality in cooperation with the Jackson County Board of Supervisors, Municipalities and the Jackson County Solid Waste Department.
