CITY OF GAUTIER
MEMORANDUM

To: Samantha D. Abell, City Manager

From: Cynthia Russell, City Clerk

Date: September 4, 2014

Subject: Annual Approval of a Comprehensive Fee Schedule

REQUEST:
City Council approval is requested for the Comprehensive Fee Schedule. Significant changes include a 20% reduction in water and sewer tap fees and also increasing the fees for meter tampering and vandalism.

BACKGROUND:
The Municipal Code of Ordinances provides for certain filing fees, permit fees, inspection fees, deposits, and conditions of service which have been established by the City Council. The fee schedule is a business-friendly comprehensive document. The Council has the sole authority to adjust or waive any set fee, with the exception of authority specifically granted by the Council to the City Manager.

DISCUSSION:
The City Clerk's Department has concluded its annual survey of fee schedules from surrounding governments. Conclusions are that surrounding governments receive an average of 4 to 6% revenue from fees, licenses and permits. The City of Gautier collects 1% revenue from fees, licenses and permits. No significant increases to fees, licenses and permits are recommended for this year. However, the Department finds that internal controls are being addressed administratively to ensure adopted fees are being charged consistently. The adoption of a Comprehensive Fee Schedule with consistent collections and procedures is a relatively new procedure for Gautier, and will continue to improve. The Clerk's Department has communicated its annual survey and findings with applicable departments.

Changes made to the Schedule are for clarification. In minor instances, fees are combined for user friendliness. Fees and revisions from the adopted Unified Development Ordinance and MS Schedule of Parks Fees are also included.

FINANCIAL IMPACT:
The City of Gautier continues to set fees comparable with its neighboring governments. Significant changes include a 20% reduction in water and sewer tap fees and also increasing the fees for meter tampering and vandalism. Based on Council comment, the method for assessments of building, mechanical, electrical, & construction permits has been revised for clarification and consistency with neighboring governments.

Other new fees reflect state changes to municipal fines and last year's municipal code revisions. For a complete list of changes, see attachment (strike-thru old/underline-new)

RECOMMENDATION:
The City Clerk recommends City Council approval of a resolution adopting the annual fees for services and to maintain a comprehensive document which identifies all fees for services provided by the City into one schedule.
