# Regional Plans

- Regional plans are more cost effective and efficient.
- Nine regional plans versus 100+.

## Where to Begin

- MEMA will assist with the mitigation planning application for a selected area.
- Meet with county EM directors/ local Representative to determine scope of work.
- Once funding is awarded, contracts will go through the state bidding process.
- Will need a designated contact person for every municipality.

## Where to Begin

- Local representatives can be part of the group that selects the successful bidder.
- Winning bidder works for both MEMA and local government.
- Monetary penalties for any contract violations.
