Okay, I took a stab at the order. This is the information.

### 2.5% for Incumbent Captains

#### FY 2016

Initial cost to implement is \$1,615.00.

#### FY 2017

Annual cost going forward is \$3,418.57.

These figures include fringe.

Funding is available at this time to fund request. These increases will be limited in nature due to attrition in the rank.

**Subject:** Public Safety Millage - Fire Captains

Josh & Teresa,

Can you see if there are enough funds in the public safety millage to give a rate increase for the three fire captains that were excluded on the April 5, 2016 agenda? When I suggested the public safety millage increase like Moss Point, it was to benefit all public safety and not to exclude any particular employees. If the funds are available, I would like for us to add it to the May 3, 2016 council meeting agenda.

Sincerely,

Casey Vaughan
